A0685-2.1

ENGINEERING AND TECHNOLOGY ENROLLMENTS FALL 1984

PART I

Engineering Enrollments by School and by Curriculum
For All Students Including a Breakdown by Women,
Minorities and Foreign Nationals

A Report of an Annual Survey
Conducted by the

ENGINEERING MANPOWER COMMISSION

A Commission of the Engineering Affairs Council
of the
American Association of Engineering Societies, Inc.
415 Second Street, NE
Washington, DC 20002

ENGINEERING AND TECHNOLOGY ENROLLMENTS FALL 1984

PART I

© 1985 by the Engineering Manpower Commission of the American
Association of Engineering Societies, Inc.

As it is the objective of AAES, Inc. publications to be a forum for the free expression and interchange of ideas, the opinions, positions, and research stated in published works are those of the original researchers and authors and not by the fact of publication necessarily those of the American Association of Engineering Societies, Inc., or related bodies. Contributing researchers and authors are requested and expected to disclose any financial, economic, or professional interests or affiliations that may have influenced positions taken or advocated in these materials.

ISBN 0-87615-086-5 207-A-85

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The American Association of Engineering Societies (AAES) is a national federation of organizations representing one-half million engineers.

As a central coordinating organization, AAES focuses the resources of the engineering societies on technological issues of national and international importance.

1985 OFFICERS

James Y. Oldshue
Chairman

John A. White
Chairman-Elect

L. Manning Muntzing
Secretary/Treasurer

Nicholas J. Radell
Past-Chairman

Daniel V. DeSimone
Executive Director

ENGINEERING AFFAIRS COUNCIL

The Engineering Affairs Council is responsible for matters concerned with the practice of engineering in the public interest. The Council encourages voluntary exchanges of information, coordination of goals and joint action.

1985 OFFICERS

William E. Carew
Chairman

Edward J. Doyle
Vice-Chairman

THE ENGINEERING MANPOWER COMMISSION
# of the
AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The Engineering Manpower Commission was organized in 1950 to serve as a focus for national technological manpower issues.

The Commission's program is carried out through the collection, analysis, and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

> "To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Engineering Affairs Council of AAES."

ENGINEERING MANPOWER COMMISSION
1985 OFFICERS

Donald G. Schroeter
Chairman

Paul B. Wood
Vice-Chairman

Eugene T. Daniel
Vice-Chairman

E.T. Kirkpatrick
Chairman, Education Committee

Paul Doigan
Chairman, Enrollment Survey

MANPOWER ACTIVITIES

R.A. Ellis
Manager, Manpower Studies

ACKNOWLEDGEMENTS

The Engineering Manpower Commission is grateful for the cooperation of the hundreds of deans and college officials who provided the data on which this report is based.

INTRODUCTION

Since 1967, the Engineering Manpower Commission has conducted annual studies of engineering and technology enrollments in order to provide timely and accurate education data. This publication is the seventeenth in that series and reflects enrollments as of the fall of 1984.

This report is divided into two parts and presents data for all students enrolled in engineering and engineering technology programs by curriculum and school. Summaries of student enrollment in ABET-accredited programs are shown. Undergraduate students are reported by year and graduate students by degree level. Data is presented for all students combined, as well as for women, Blacks, Hispanics, American Indians, Asian/Pacific Islanders, and foreign national students. It should be noted that Part I deals exclusively with engineering enrollments and Part II with engineering technology enrollments.

Part I contains detailed *engineering* enrollment data by school for all students, women, Blacks, Hispanics, American Indians, Asian/Pacific Islanders, and foreign national students. It also contains detailed data by curriculum for all the above mentioned groups, as well as summary curriculum data, combined for all schools.

Part II contains detailed engineering *technology* enrollment data by school for all students, women, Blacks, Hispanics, American Indians, Asian/Pacific Islanders, and foreign national students. It also contains detailed data by curriculum for each of the above groups of students, as well as summary curriculum data, combined for all schools.

Although every attempt has been made to eliminate errors in reporting the statistics, some discrepancies may appear. In several cases, inconsistencies in the data submitted have been corrected, or related curricula grouped under a common title so that this report would be manageable in size. Any questions regarding the course content of a specified program should be directed to the reporting institution. Users of this report are advised to read the explanatory material before using the data tables provided herein.

For the convenience of users, these parts of Engineering and Technology Enrollments—Fall 1984 are available separately or as a set. Orders may be placed with the Publications Department, American Association of Engineering Societies, 415 Second Street NE, Suite 200, Washington DC 20002.

THE 1984 ENGINEERING ENROLLMENT SURVEY

In September of 1984 questionnaires were sent to 289 U.S. schools offering engineering programs at least at the bachelor's degree level.

ESTIMATED DATA

Information was not received from the following engineering schools at the time of publication. In order to present reasonably comparative data to previous reports, information from the 1983 report has been substituted for these institutions:

University of Alabama, Huntsville
Arkansas Tech University
California State Polytechnic
Fairleigh Dickinson University
University of Hartford
Harvard University
University of Idaho
Idaho State University
Illinois Institute of Technology
University of Michigan, Dearborn
New Jersey Institute of Technology
University of New Orleans
Northern Arizona University
Northrop University
Oakland University
Prairie View A & M College
University of Puerto Rico
St. Mary's University
Syracuse University
Texas Tech University
The Citadel
U.S. Coast Guard Academy
U.S. Naval Postgraduate School
Walla Walla College
University of Wyoming

Estimated & previous year's data is indicated in this report by an asterisk(*) appearing before the estimated or substituted entry.

The following engineering schools have not provided us with data recent enough to be of accurate use in this publication. We regret that we are unable to include their data in this year's publication:

Polytechnic Institute of NY
Seattle Pacific University

DATA TABLES

It should be noted that the following features are common to all tables:

(a) The figures for the individual undergraduate years are for FULL-TIME students only. All part-time enrollments are combined regardless of the student's academic standing.

(b) Full-time advanced degree enrollments are reported under the headings of master's, engineer, or doctorate degrees, and as a total for all full-time graduate students. All part-time graduate student enrollments are combined in one column.

Accreditation and Control Identification (AC). Schools have been assigned a two-digit code to indicate accreditation and public or private control.

The first digit (1-6) indicates accreditation as follows:

1 = At least one engineering curriculum accredited by ABET (1984 list). Used only in the engineering tables.
2 = At least one technology curriculum accredited by ABET (1984 list). Used only in technology tables.
4 = Accredited by regional accrediting commission.
5 = Accredited by National Association of Trade and Technical Schools.
6 = None of the above.

The second digit (1-5) indicates control as follows:

1 = Public - state or local government control
2 = Public - federal government control
3 = Private - non-profit, non-sectarian
4 — Private - religious
5 = Private - proprietary

For the purposes of recording accreditation status, information was obtained from the Accreditation Board for Engineering & Technology (ABET) 1984 report. ABET-accreditation status for bachelor's and master's degree programs is shown in the column designated "ACCR" where curricula are listed individually.

N = Non-accredited
B = Accredited at the Bachelor's level
M = Accredited at the master's level

HISTORICAL SUMMARY
ENGINEERING ENROLLMENTS IN FALL, 1984
As Compared With Earlier Years

	Fall 1974	Fall 1975	Fall 1976	Fall 1977	Fall 1978	Fall 1979	Fall 1980	Fall 1981	Fall 1982	Fall 1983	Fall 1984
Engineering Students											
Freshman Year, Full-Time	63,444	75,343	82,250	88,780	95,805	103,724	110,149	115,280	115,303	109,638	105,249
Sophomore Year, Full-Time	45,935	55,891	63,003	70,326	72,150	78,594	84,982	87,519	89,785	89,515	83,946
Junior Year, Full-Time	43,007	94,338	56,835	64,721	69,816	74,928	80,024	86,633	90,541	91,233	89,509
Senior Year, Full-Time	44,538	47,070	51,692	60,109	68,260	77,823	84,442	92,414	102,055	109,036	109,695
Fifth Year, Full-Time	4,175	3,737	4,055	5,312	5,206	5,419	5,520	5,731	5,706	6,722	6,236
